OPEN SOURCE FRAMEWORKS

Some open-source frameworks for creating a blog using WordPress are:

Gantry Framework:

Gantry is a free and easy-to-use framework that is perfect for beginners and experienced developers alike. It features a drag-and-drop interface, a wide range of customization options, and a fully responsive design.

Cherry Framework:

Cherry is another popular free framework that is known for its flexibility and power. It includes a variety of features, such as custom post types, taxonomies, and widgets. Cherry is also compatible with a wide range of third-party plugins and themes.

Genesis Framework:

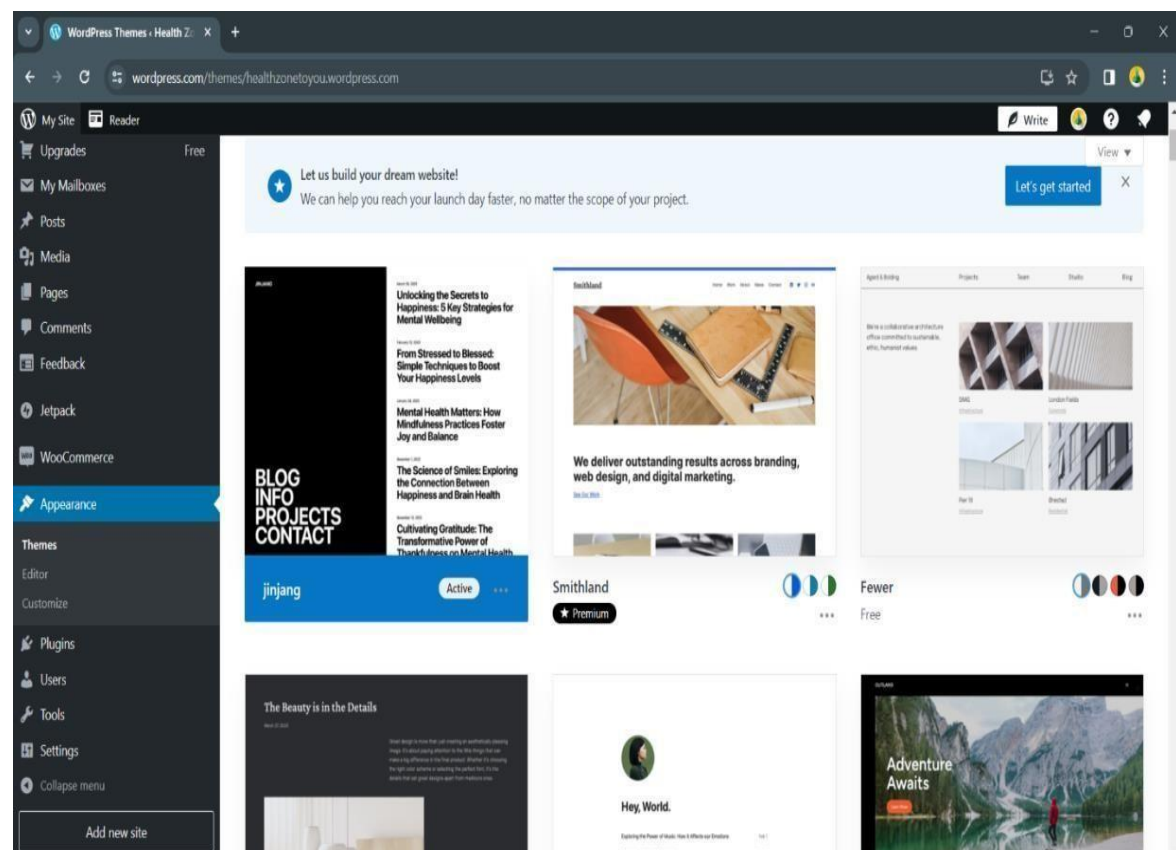

Genesis is a premium framework that is known for its performance and security. It is also very easy to customize and extend. Genesis is a good choice for bloggers who are serious about their websites and want a framework that will grow with them.

Redux Framework:

Redux is a popular premium framework that is known for its flexibility and customization options. It includes a variety of features, such as custom post types, taxonomies, widgets, and shortcodes. Redux is also compatible with a wide range of third-party plugins and themes.

Understrap:

Understrap is a free and open-source framework that is built on top of Bootstrap. It is a good choice for bloggers who want to create a responsive and mobile-friendly website. Understrap is also very easy to customize and extend.

COVID-19 Understanding, Prevention

In the wake of the COVID-19 pandemic, adopting preventive measures to reduce its impact, it's crucial that communities and local businesses adopt best practices for preventing the spread of the virus. Understanding COVID-19: What you need to know. COVID-19, caused by the SARS-CoV-2 virus, is a respiratory illness that can range from mild to severe. In some cases, it can be fatal. It primarily spreads through respiratory droplets when an infected person coughs, sneezes, or talks. Close contact with infected individuals or touching contaminated surfaces can also lead to transmission.

Key Symptoms

COVID-19 Understanding, Prevention and Safety Measures is now live.
